

SECTION- 7

PROCEDURE OF APPLICATION (Group No. & Order of Preference)

An applicant may apply for multiple courses if meets the eligibility criteria detailed in Sections 3, 4, 5, 5A, 5B and 6. If applying for more than one course, candidate must rank the choices in order of preference. Candidate must carefully select all intended courses at once; the system will then automatically generate the necessary application form(s) for the candidate.

SIGNIFICANCE OF ORDER OF PREFERENCE

In some cases, a candidate may apply for more than one course with Order of Preference. When applying for multiple courses, order of preference given by the candidate is final and may not be edited later. The selection process works by merit: during Selection process, all the options of the candidate with Higher Merit will be considered first then the options of the candidate in next higher merit will be considered. Once the candidate matched with a course, all lower preferences are automatically be closed. However, the candidate remains eligible for any higher preferences next round of selection. For this reason, the candidate should select the course as preference 1 which he/she thinks the best one and he/she intends to get admission, if he/she gets chance. Accordingly, 2nd best course as preference 2 and so on. The preference 1 is higher option than preference 2 and so on. Accordingly, 2nd best course as preference 2 and so on.
